## EMPOWERING YOUTH AND FAMILIES AS LEADERS IN SCHOOL BEHAVIORAL HEALTH NAVIGATING A NEW LANDSCAPE

The Southeastern School Behavioral Health Community is in its 8th year hosting the premier school behavioral health (SBH) conference in the southeast. The conference provides training on the most effective strategies for SBH programs in schools that reduce barriers to student learning and promote their social, emotional, behavioral and academic success. While the conference focuses on all students in general and special education, there is enhanced training regarding working with students who present with disabilities through a partnership with the South Carolina Department of Education.
